The Sixth Form College, Colchester has recently benefited from a major new CCTV system.

David Watts, Senior Manager Accommodation and Premises at the College said "The system gives such clear a picture. It's very reassuring to know we can monitor the site effectively".

If you have an installation story that you would like to share with us please contact sales on +44(0)1924 528000 or email [sales@videcon.co.uk](mailto:sales@videcon.co.uk)

The Concept Pro CCTV system features 28 x VCP701/IRH IR cameras with 2 high-powered LED lamps with 206 LEDs, fully cable-managed mounting bracket to accommodate the larger lamps and no exposed cable glands to make the unit more secure. The IR lamps have a range in low light of up to 80m and with its commanding design and presence acts as an effective deterrent.

The Concept Pro VXM4B DVR range is highly recommended in independent testing for its build quality, functionality, ease of installation and performance.

For information about Concept Pro CCTV systems contact Videcon on 01924 528000.

The system has been installed by Abacus Fire & Security Ltd., based in Suffolk. Abacus were tasked with installing a modern security system capable of monitoring a large premises in normal and low light for the safety and security of the pupils and staff. The system itself is comprised of Videcon's Concept Pro VXM4B 16 Channel DVRs, VCP701/IRH Infra-red cameras and control equipment to monitor the safety of over 3000 students and members of staff.

Abacus Fire and Security Ltd. are leading independent installers of Electronic Fire and Security Systems with over 30 years experience in design, installation and maintenance of these systems. Contact Abacus on 01473 824601 or visit [www.abacusfireandsecurity.co.uk](http://www.abacusfireandsecurity.co.uk).
